

Nursing's Leading Edges Advancing the Profession Through Specialization, Credentialing, and Certification

Lisa Summers, MSN, DrPH, FACNM & Carol J. Bickford, PhD, RN-BC, CPHIMS, FHIMSS, FAAN

Chapter 1: An Overview of Nursing Practice in Today's World

- Today's Nursing Practice Environment
- The Nursing Workforce
- Recent Evolution of Nursing Education
 - Doctoral Education in Nursing
 - Development of the DNP
- Other AACN and NLN Contributions to Nursing Education
- Regulation and Licensure
- Key Stakeholders in the Practice Environment
 - Professional Associations
 - Certifying Bodies
 - Accrediting Organizations
- Identification of Recommended Competencies Associated with Nursing Education and Practice
- The Growth of Specialization in Nursing
- Documents Essential for All Nursing Practice

- Nursing-External Forces and Initiatives
 - Health System Reform
 - The Institute of Medicine: Five Key Reports
 - Information Technology
 - Quality Agenda
 - A Model for Defining Practice and Acceptable Competence
- References

Chapter 2. Specialization and Credentialing: Concepts and Definitions

- Definitions of Key Terms
- Purposes of Credentialing
- Elements of Credentialing
- Respective Roles and Mutual Recognition:
 - Diagrams of Credentialing
- Credentialing of Individuals
- Accreditation and Recognition of Organizational Programs
- References

Chapter 3. Specialization and Certification for RNs: Growth and Recognition

- Formal Recognition of Nursing Specialties
- Recognition of Specialty Nursing Competence and Expertise
- Growth of Certification in Nursing
- State of the Science: Research on Certification in Nursing
- References

Chapter 4. Specialization and Certification for APRNs: The Consensus Model

- The Four APRN Roles
- The Consensus Model for APRN Regulation
 - What Drove the Development of the Model?
 - Lack of Common Definitions for APRN Roles
 - Lack of Standardization in APRN Education Programs
 - Proliferation of Specialties and Subspecialties
 - Lack of Common Recognition Across Jurisdictions

Nursing's Leading Edges Advancing the Profession Through Specialization, Credentialing, and Certification

Lisa Summers, MSN, DrPH, FACNM & Carol J. Bickford, PhD, RN-BC, CPHIMS, FHIMSS, FAAN

Development of the Consensus Model

Multiyear Process

Key Stakeholders Committed to Consensus

Basic Assumptions About the Consensus Model

ANA's Role in the Consensus Model

Key APRN Aspects of the Consensus Model

Definition of an APRN

LACE: The Four Essential Elements

Relevance of Specialties

APRNs as "Independent Practitioners"

APRN Education

Emergence of New APRN Roles and Population-Foci

Implementation: Strategies, Challenges, and Progress to Date
