

# CONTENTS – *TEACHING IOM: IMPLICATIONS OF THE INSTITUTE OF MEDICINE REPORTS FOR NURSING EDUCATION 2<sup>nd</sup> EDITION (2009)*

Anita Finkelman, MSN, RN & Carole Kenner, DNS, RNC-NIC, FAAN

Preface by Patricia Benner, PhD, RN, FAAN

The Relevance of IOM Reports To Nursing Education

## PART 1. THE IOM REPORTS: SUMMARIES, RECOMMENDATIONS, AND CLINICAL IMPLICATIONS

Introduction

Quality Care Reports

Emergency Care Reports

Best Practices For Better Health: Example Reports

Leadership Report

Diversity and Disparity Reports

Public Health Reports

Nursing Report

Education Report

Clinical Implications of the IOM Reports

Summary

## PART 2. NURSING EDUCATION AND THE IOM REPORTS: AN OVERVIEW

Introduction

Where Is Nursing Education In Relationship To The IOM Reports? Critical New Education Reports

General Nursing Education Issues and Changes

The Faculty Shortage: Where Are We Going and Implications?

New Pathways

Considering the Needs of Students and Graduates from Different Perspectives: Nurse Externships and Residencies

Simulation: An Expanding Pathway to Learning

NLN Centers of Excellence: Schools of Nursing and Forces of Magnetism

Nursing Curricula

Summary

## PART 3. INCORPORATING THE CORE COMPETENCIES IN NURSING EDUCATION

Introduction

*Core Competency: Provide Patient-Centered Care*

Decentralized and Fragmented Care

Changing Our Perspective of the Nursing Assessment

Self-Management Support

Diversity and Disparities in Healthcare

Healthcare Literacy

Consumer Perspectives

**CONTENTS – TEACHING IOM: IMPLICATIONS OF THE INSTITUTE OF MEDICINE  
REPORTS FOR NURSING EDUCATION 2<sup>nd</sup> EDITION (2009)**

Anita Finkelman, MSN, RN & Carole Kenner, DNS, RNC-NIC, FAAN

Population and Personal Healthcare Delivery Systems	Joint Commission and Quality Improvement
Clinical Prevention and Population Health: Curricular Framework for Health Professionals	Access to Care Management Programs and Guidelines
<i>Core Competency: Work On Interdisciplinary Teams</i>	The Nursing Shortage, Staffing, and Quality
Teamwork	Nursing Activities and Relationship to Quality
Care Coordination	National Quality Forum (NQF)
Interdisciplinary Collaboration	Quality Improvement: Content and Clinical Experiences
Transformational Leadership	<i>Core Competency: Utilize Informatics</i>
Staffing, Teams, and Quality: Maximizing Workforce Capability	Use of Computers in Healthcare Organizations
Delegation	The Digital Divide: Disparities and Information
Team Communication	Standardized Terminologies
Structured Interdisciplinary Forums	Computer-Based Reminder Systems
Workspace Design and Work Environment	Access to Complete Patient Information at the Point-of-Care
Learning Organizations	Clinical Decision Support Systems
<i>Core Competency: Employ Evidence-Based Practice</i>	Health Insurance Portability & Accountability Act (HIPAA)
Research	IT, Recruitment, and Retention
Evidence-Based Practice	E-Patients
Collaborative Evidence-Based Practice	Nurses' Involvement in IT Decisions
Teaching Research and EBP Online	Nursing Education and Informatics
<i>Core Competency: Apply Quality Improvement</i>	New Approaches in Education Technology
Building a Healthcare Quality Framework	Comparison of IOM Healthcare Core Competencies and Quality and Safety in Nursing Education (QSEN) Initiative
Safety: A Critical Component of Quality Improvement	
Other Critical Clinical Quality Issues	
Workplace Safety	Summary
Patient Satisfaction with Care	
Quality and Cost of Care

**PART 4. USING IOM REPORTS IN THE CLASSROOM**

Learning Objectives

Presentations

Teaching Tips and Techniques

Issues for Further Exploration

Classroom Activities

Self-Assessment Tools

Questions for Reflection

Teaching IOM: Assessment

Internet Links

**PART 5. REFERENCES, TERMS, AND APPENDICES**

References

Glossary

Abbreviations and Acronyms

Appendix A. Recommendations from  
the President's Advisory Committee  
on Consumer Protection and  
Quality in the Healthcare Industry

Appendix B. Recommendations  
from *To Err Is Human*

Appendix C. Recommendations  
from *Crossing the Quality  
Chasm*

Appendix D. Recommendations  
from *Leadership by Example*

Appendix E. Recommendations  
from *The Future of the Public's  
Health*

Appendix F. Recommendations  
from *Who Will Keep the Public  
Healthy?*

Appendix G. Recommendations  
from *Keeping Patients Safe:  
Transforming the Work  
Environment for Nurses*

Appendix H. Strategies and  
Recommendations from *Health  
Professions Education*

Appendix I. Example of Nurse  
Residency Program Based on the  
Five IOM Core Competencies

Appendix J. Undergraduate  
Curricula Schema Based on IOM  
Five Core Competencies

Appendix K. *Nursing Against  
Whose Odds?* Commentary on  
Gordon (2005) as an Example of  
Teaching to the IOM Reports

Appendix L. Clinical Prevention  
and Population Health:  
Curricular Framework for Health  
Professions
